RJS Waste Management UK Ltd collects and processes waste from industrial and commercial customers.

The management and all who work at RJS Waste Management UK Ltd are committed to providing the highest possible levels of service in satisfying the requirements of our customers.

The organisation ensures that all its activities are carried out in conformance with the relevant environmental legislation.

The primary activity is to collect and refine waste and the secondary activity is to transfer this waste to authorised disposal facilities. Controlled procedures and work instructions are followed by staff and monitored by management.

In its own internal operations RJS Waste Management UK Ltd seeks to minimise waste arising, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets, which are regularly monitored and reviewed. The objectives and targets are to improve year on year.

The Policy and the obligations and responsibilities required by the environmental management system have been communicated to all RJS Waste management employees.
